September 2024

From the Roseneath and Physiocorp team

From the Roseneath and Physiocorp Teams Launch of Advanced Rehab Program at Roseneath in partnership with Physiocorp!

We are thrilled to announce our collaborative effort in pioneering an Advanced Rehab Program aimed at addressing common challenges faced by our residents. Our comprehensive program targets a spectrum of concerns including pain, mobility issues, balance difficulties, and de-conditioning. Through rigorous evaluation against initial baselines, we aim to enhance quality of life by reducing pain, improving mobility, minimising falls and preventing hospital admissions.

How will it work?

We have screened all Residents and documented current issues, establishing baselines, and defined desired outcomes for each resident so that we can commence 1:1 treatments. We will be commencing an extensive 8-week action plan of targeted rehab routines for a select group of residents that is tailored to their individual needs. Our dedicated team adheres strictly to research protocols, ensuring each session is conducted with precision and care on an hourly basis.

Who will this benefit?

Anyone suffering from pain, mobility issues, de-conditioning, falls and subsequent hospital admissions or just wants to improve their quality of life will benefit from participating in the program.

We aim to assist them in reaching simple goals while improving some other mobility aspects within their daily routines.

How to access?

Each program will run for 8 weeks such that the residents on the program will receive 1:1 treatments from our Physiotherapist (John) for 2x30 min sessions each week.

At the end of the program, each resident will transition back to group exercise sessions facilitated by our Physio Aide. That will provide the opportunity for a new 8 week program to commence with a new group of residents.

To register your interest in participating in the program, please call us or speak to Janelle, Nutan or Rachel.

Please contact us on 6732 2043

How do I pay?

When you sign up for the Program, we will include the fees in your regular monthly account so that they are paid at the same time as your other fees.

There are some potential avenues for you to recover these Advanced Rehab Program fees from:

Medicare: Medicare item#10960 provides a rebate of \$60.35 per session for up to 5 physiotherapy sessions per year provided your GP has prescribed an Extended Primary Care Program for you to treat your complex care needs or a chronic condition:

www9.health.gov.au/mbs/fullDisplay.cfm?type=item&q=10960

Private Health Insurance: please check with your Health Insurer

Department of Veterans Affairs: www.dva.gov.au/about-us/dva-forms/claim-out-pocket-medical-expenses

National Disability Insurance Scheme:

ourguidelines.ndis.gov.au/how-ndis-supports-work-menu/mainstream-and-community-supports/what-supports-will-we-include-your-plan

We will include Figtree Health's Provider Number and the Treatment Code on our Monthly Statement but if there is any further information you need in order to submit a claim for the Physiotherapy Services, please contact us.

What will it cost?

Because the Aged Care Subsidies paid by the Government do not cover these intensive 1:1 Rehab Treatments by a Physiotherapist, Roseneath will be charging the following fees for each Residents' participation in the targeted 8 week program:

Initial consultation & treatment on Day 1 (40 mins): \$150

Daily treatment (for each 30 min session): \$95

The total cost per resident for their participation in the 8 week program will be **\$1,575**

(i.e \$150 + 15x30 mins sessions @ \$95/session = \$1,575)

How to contact us?

Please call 6732 2043 or drop in for a cuppa and a chat with Janelle, Nutan or Rachel.
